

ILLINOIS: Top Crop

Top Crop Wind Farm consists of two phases and converts the wind blowing over the Cayuga Ridge into clean electricity. Located just northwest of Pontiac, the wind farm includes parts of Grundy and LaSalle Counties.

300 MW
ONLINE SINCE 2009

Top Crop Wind Farm produces enough clean electricity to power more than **104,000** Illinois homes.¹

Economic Benefits

Top Crop represents a capital investment of approximately **\$669 million**.²

Approximately **\$19.4 million** in cumulative payments to local governments through 2017.

More than **\$27.8 million** paid to local landowners through 2017.

Created **257** full-time equivalent jobs during construction and **16** permanent jobs during the life of the project.³

\$98.8 million spent within 50 miles of the wind farm through 2017.⁴

ComEd purchases clean energy from Top Crop.⁵

Turbine Technology

Top Crop I Wind Farm consists of 68 GE sle 1.5 MW wind turbines, and Top Crop II Wind Farm consists of 132 GE sle 1.5 MW wind turbines.

About Us

EDP Renewables North America LLC ("EDPR NA") and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 45 wind farms, five solar parks, and 13 regional and development offices across North America, EDPR NA has developed more than 6,200 megawatts (MW) and operates more than 5,600 MW of renewable energy projects. With approximately 600 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.

EDPR NA is owned by EDP Renováveis, S.A. ("EDP Renewables" or "EDPR"), a global leader in the renewable energy sector that develops, constructs, owns, and operates renewable electricity generation facilities. With a sound development pipeline, first-class assets, and market-leading capacity, EDPR has grown extensively in recent years and is ideally positioned for long-term growth. EDPR is committed to renewable energy generation which has become reliable and competitive due to technological advancements that have led to greater efficiencies. The company operates in the most attractive markets, continuously expanding to new areas of the world. EDPR is currently present in the United States, Spain, Belgium, Brazil, Canada, France, Italy, Mexico, Poland, Portugal, Romania, and the United Kingdom.

www.edpr.com or www.edprnorthamerica.com

¹Power generation calculated using a 35% capacity factor. Household consumption based on 2016 EIA Household Data monthly average consumption by state.

²Assumes the average cost of an installed wind farm is \$1.7 million/MW for projects built since 2012 and about \$2.2 million/MW for projects built before 2012, based on US DOE 2015 Wind Technologies Market Report <https://emp.lbl.gov/publications/2015-wind-technologies-market-report>.

³Full-time equivalent jobs calculated by dividing number of contractor hours worked during construction by 2080.

⁴Includes vendor spending, property taxes, landowner payments and wages from site jobs. These numbers are presented for example purposes only and actual payments may vary.

⁵Top Crop I Wind Farm Offtakers: ComEd (PPA). Additional offtakers privately purchase clean energy from Top Crop I Wind Farm. Top Crop II Wind Farm Offtakers: Offtakers privately purchase clean energy from Top Crop II Wind Farm.

⁶Assumes 0.5 gallons of water consumed per kWh of conventional electricity from Macnick et al., 2012: http://iopscience.iop.org/1748-9326/7/4/045802/pdf/1748-9326_7_4_045802.pdf.

Top Crop Wind Farm saves more than **460 million** gallons of water each year.⁶

Top Crop Wind Farm is compatible with other land uses.

MADE IN THE USA
The vast majority of wind farm equipment is manufactured in the United States.

Top Crop Wind Farm provides energy security and helps diversify supply.
